

Providing efficiency.
Increasing performance.
Assuring quality.

Our solutions for
tomorrow's problems

Committed to excellence

Meeting the Needs of Our Customers

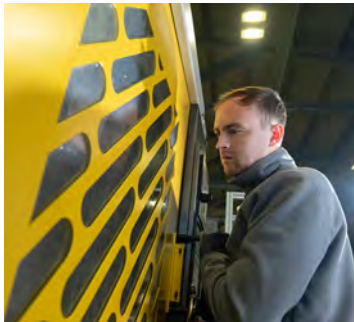

We want to become an innovative company that will provide our customers a complete service from a development till production and assembly of either a product or service inquired. We want our work environment to be friendly so as for our employees to live in a receptive working environment.

CNC Machining

Utilizing advanced 3-axis CNC machines, we excel in precision milling, crafting intricate designs and handling various materials such as steel, aluminum, and plastics with utmost accuracy.

Our machining area of 1000 x 500 mm provides ample space for intricate projects while ensuring consistent quality across the board.

Automation

Robotehnika provides efficient solutions for optimizing work processes and focuses on added value.

Standing out with a team specialized in industrial automation, Robotics combines innovation, expertise, and experience in mechanical processing, electronics, and information technologies.

The goal is efficiency, quality, and the highest level of customer satisfaction.
